

## Supply Chain Success Story!

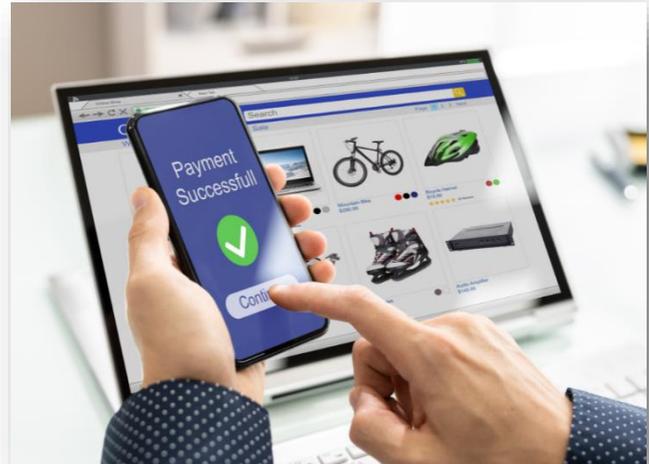

# Delivery and Installation in Support of the Largest E-Commerce Company in the World

## THE STORY

When the largest e-commerce company in the world needed a provider to deliver, install, and replace servers and equipment at its key distribution centers, they called Logistics Plus.

## THE HIGHLIGHTS

- Logistics Plus receives servers, equipment, components, and accessories for the client at Logistics Plus warehouse locations.
- Logistics Plus takes on all responsibility as the Importer of Record (IOR) when servers are required to be transported, delivered, and installed in foreign countries where the client has no legal presence.
- Logistics Plus handles demand forecasting, capacity management, quality management, delivery, installation, and more.
- Logistics Plus supports projects ranging in scope and size from <1MW modular data centers to extensive 100+MW phased constructions.
- To date, Logistics Plus has stored, delivered, and installed over 7,000 servers and components at 450 distribution centers across the United States and eleven other countries.
